

Eye Care in a Patient-Friendly Environment SEE THE BEST

Dr. C. Joseph Anderson and Dr. Michael B. Shapiro, co-founders of Anderson & Shapiro Eye Care in Madison, have created a venue like no other. With the addition of Dr. Nicole Anderson-Weiss, these doctors have combined their expertise, dedication, enthusiasm and compassion to build a medical practice that emanates excellence and proficiency.

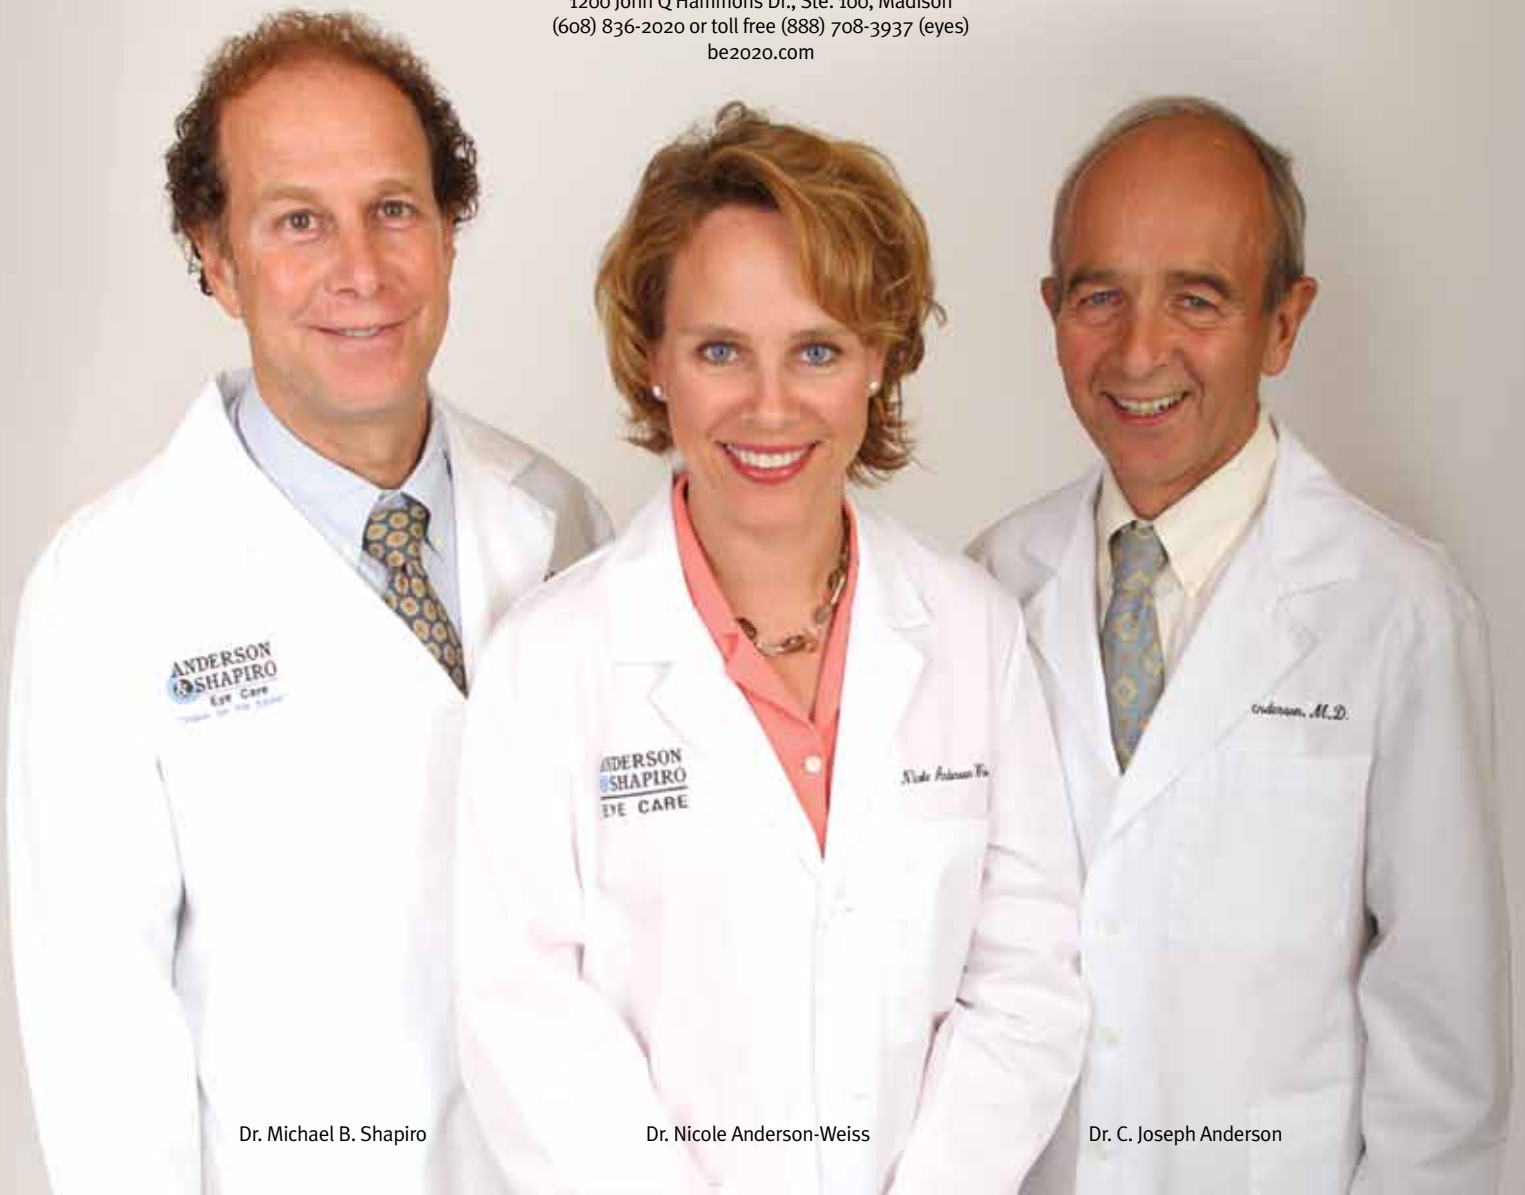

Doctors Anderson, Shapiro and Anderson-Weiss believe in a personalized approach to medicine, providing their patients with an amiable, individualized and well-informed experience. According to Dr. Anderson, "Our goal is to always put the patient first and to make the patient feel that he or she has had the best possible care in every possible way."

In addition to bladeless LASIK surgery Anderson & Shapiro EyeCare performs state of the art cataract surgery. Dr. Anderson-Weiss states, "We are able to offer patients intraocular lenses that correct the need for reading glasses as well as laser and lens technology to correct astigmatism. We have the highest degree of technology and the highest quality of care that you can possibly have."

At Anderson & Shapiro Eye Care we can help you see better and we can also make you look better because we now offer Blephroplasty, Lattise, Botox, and Dermafillers in addition to our personalized comprehensive eye care. "Come see and look your best"
